

RE: 1705-19166/DJS/ATTACHMENT 3

Hello Tia,

Two days ago you wrote to me.

"5/2 

Henri,

Isn't that the truth if it's not one thing...!

I did not receive the pedigree, was it supposed to be attached to an email? "

Now a host of questions regarding the pedigree not received.

Further in reply to your questions. All my cats are in the CFA data base. The data base you are viewing has clearly not been updated.

Further in reply their Dam is Catseye Bright Eyes of Gotier. You know their Sire is "Nureyev".

As stated no registration papers are provided on pet kittens only their pedigrees. This due to abuse in the past by people buying and using the males at stud rather than as pets as claimed.

However papers may be provided to you after both are neutered and proof of neuter is provided to me

Subject: Reply: Kittens parents

Oye did I screw up!

Hi Tia,

First of all I have been on the money that the litter is from Nureyev but wrong with the Dam. Mom is Gotier Kinta.

I had the boys envelopes on their papers reversed by the Vet's staff when I took them in for their health certificates. Anyway just now I was looking at the papers realized they switched the papers when putting them back they put the wrong papers in each envelope. Long story long Whoopee. Great Mom, lovely lads. The as Nureyev's kittens all look like him!! Amazing the family resemblance.

Later,
Henri
