Hello

I only handle the registration via pedigrees. Now you have provided a litter number which means the cat was not registered v pedigree. I am sending this to Kylie in registrations.

Thank you,

Hello

In looking at these homemade pedigrees by Mr. Pelletier, I do not see the mother's registration number on them. If the mother is not registered with us, I can not look to see if he has registered these litters with us. Your best bet is to contact Mr. Pelletier and ask him to clarify the birthdate for you.
