fax:

Dear ,

This letter is in reference to Miso, the 6 months old, M Siamese owned by Tia Gonnella. Miso was presented to us on 05/10/2017.

PRESENTING CONCERN(S) : New kitten**HISTORY:****New Kitten Examination****How long have you had Miso?**

just picked up from airport today

Where did you acquire Miso from?

breeder in FL

What kind of food are you feeding and how much/frequency?

~~

Do you plan to spay/neuter/declaw?

yes, when older

Has Miso had any vaccinations yet?

yes by breeder FVRCP 3/5 and 3/26

Does Miso have a history of vaccination reactions?

not sure

Has Miso had a FeLV/FIV test yet?

yes unsure of date

Has Miso been dewormed yet?

Droncit 3/5 and 3/26

Do you plan to keep Miso indoor only or will they have access to the outdoors?

indoors

Is Miso on any medications currently?

none

Any other concerns/problems to be addressed by the doctor?

respiratory issues, fleas

PHYSICAL EXAM FINDINGS:

BAR, mm pk/CRT<2sec. Heart and lungs auscult normally, mild referred upper respiratory noise. Abdomen soft/non-painful. Lymph nodes normal. Ambulatory x4, no ataxia/lameness. Cranial nerves normal. Large amount of live fleas. Urogenital system normal. EENT clear. Mild bilateral mucoid ocular discharge. Euhydrated.
Temp: ~~ Pulse: 250 RR: 35 Weight: 3.4#

ASSESSMENT:

URI
Fleas

PLAN:

Don't want to vaccinate today since just was transported by plane and potentially has URI.
Clavamox drops (62.5mg/mL) 0.5 mL PO BID x 7 days. Capstar 2-25# single dose PO. Feline Drontal 1 tab PO once. O has Frontline plus, will apply at home.
Recheck in 7 days for vaccinations.

We appreciate your confidence in Grady Veterinary Hospital. We pledge to provide the clients you refer to us the same personal care that you and your pets appreciate. Please do not hesitate to call with any questions or concerns. Again, thank you for your trust.

Sincerely,

Dr. Lauren Jurgens
